

Did you know?

Firefighters can't help if they can't find you.

Your safety in an emergency depends on responders' ability to find you quickly.

Saving lives and property can come down to a matter of seconds.

Emergency vehicles need to be able to see your address day or night.

ADDRESS SAFETY TIPS

- House numbers should be visible from the street.
- If your house is set back, affix numbers to a mailbox or post that can be seen from the public road.
- Trim any greenery and remove decorations that may block clear view of your address.
- If possible, post your address near a porch light, or at least use reflective numbers.
- House numbers should be at least 4 inches tall.
